Mini Project - 4

Task: Accessing Container Portal with QR Code

Steps:

1) Pull and run any docker image on the terminal in the background.

   docker run -d --name mynginx -p 2266:80 nginx

2) Install a QR Code Generator. E.g. qrencode on linux.

   sudo apt install qrencode

3) cd into any working directory and run the command:

   qrencode -o nginx_container.png "http://<public ip>:2266"

4) Scan the image from the directory.

5) A nginx page opens on the IP address.
